PART 1010—SUSPENSION ORDERS

[Suspension Order S-300]

A. W. HEBEBRAND

A. W. Hebebrand is a partner in the firm of Hebebrand Builders with offices at 18,900 Lorain Avenue, Cleveland, Ohio. The partnership has been engaged for a number of years in building operations and has built more than 200 houses during the last two years. A. W. Hebebrand is the person actively in charge of the firm's operations.

Shortly before October 1, 1942, he purchased for his own use a large house on a 33 acre estate located at 6388 Rocky River (Riverside) Drive, Cleveland, Ohio. On or about October 1, 1942, the respondent employed an architect to prepare plans to remodel this house, in addition to making numerous and extensive changes in the appurtenances and grounds, which contain a stream, tennis court, stable, and four-car garage. Shortly thereafter, the respondent, as owner and installer, began construction of alterations and improvements using critical materials and labor in violation of Conservation Order L-41, Conservation Order M-9-c-4 and Preference Rating Order P-84. Early in December, 1942, when the work was stopped, the

respondent had already paid out to apply thereon a total of \$4,230.53 and the ultimate cost would have approximated \$7,500.00 which was greatly in excess of the amount permitted under L-41. The use of copper pipe and tubing was a violation of Conservation Order M-9-c-4. The purchase and use of new metal heating and plumbing equipment was a violation of P-84. The respondent either knew or should have known of these restrictions on construction work and scarce materials.

Such actions constitute wilful violations of Conservation Order L-41, Conservation Order M-9-c-4 and Preference Rating Order P-84; they have diverted critical materials and labor into non-essential uses without authorization of the War Production Board, and have impeded and hampered the war effort of the United States. In view of the foregoing; *It is hereby ordered, That:*

§ 1010.300 *Suspension Order S-300.* (a) Neither A. W. Hebebrand, nor his successors or assigns, nor any other person, directly or indirectly, shall order, purchase, accept delivery of, withdraw from inventory, or in any other manner secure or use any material or construction plant in order to begin or continue any "construction" (as "construction" is defined in Conservation Order L-41, as amended), whether heretofore commenced or not, on the buildings and premises located at 6388 Rocky River (Riverside) Drive, Cleveland, Ohio, unless specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve A. W. Hebebrand, his successors and assigns from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on April 29, 1943.

Issued this 27th day of April 1943.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

PART 1042—IMPORTS OF STRATEGIC MATERIALS

[General Imports Order M-63 as Amended
April 28, 1943]

§ 1042.1 *General Imports Order M-63—(a) Definitions.* For the purposes of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether or not incorporated.

(2) "Owner" of any material means any person who has any property interest in such material except a person whose interest is held solely as security for the payment of money.

(3) "Consignee" means the person to whom a material is consigned at the time of importation.

(4) "Import" means to transport in any manner into the continental United

States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

(5) "Place of initial storage" means any warehouse, yard ground storage, or other place, to which the person making the entry or withdrawal from custody of the United States Bureau of Customs of material imported subject to this order directs or has directed that such material be transported from the port of entry to be held until disposed of pursuant to this order.

(6) Material shall be deemed "in transit" if it is afloat, if an on board ocean bill of lading has actually been issued with respect to it, or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States.

(7) "Governing date" with respect to any material means the date when such material first became subject to General Imports Order M-63.

(b) *Restrictions on imports of materials—(1) General restriction.* No person, except as authorized in writing by the War Production Board, shall purchase for import, import, offer to purchase for import, receive, or offer to receive on consignment for import, or make any contract or other arrangement for the importing of, any material subject to this order after the governing date. The foregoing restrictions shall apply to the importation of any material subject to the order, regardless of the existence on the governing date or thereafter of any contract or other arrangement for the importation of such material. The materials subject to this order are those listed from time to time upon List I, List II, and List III attached hereto.

(2) *Authorization by War Production Board.* Any person desiring such authorization, whether owner, purchaser, seller, or consignee of the material to be imported, or agent of any of them, shall make application therefor in duplicate on Form PD-222C, addressed to the War Production Board, Ref.: M-63, Washington, D. C. Unless otherwise expressly permitted, such authorization shall apply only to the particular material and shipment mentioned therein and to the persons and their agents concerned with such shipment; it shall not be assignable or transferable either in whole or in part.

(3) *Restrictions on financing of imports.* No bank or other person shall participate, by financing or otherwise, in any arrangement which such bank or person knows or has reason to know involves the importation of any material subject to this order after the governing date unless such bank or person has received either a copy of the authorization issued by the War Production Board, or, if the transaction comes within the exceptions set forth in para-

graph (b) (4), an affidavit stating the facts which show the exception.

(4) *Exceptions.* Unless otherwise directed by the War Production Board, the restrictions set forth in this paragraph (b) shall not apply:

(i) To the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, or any agent acting for any such department, agency, or corporation; or

(ii) To any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, or to any material which the owner at the time of importation had purchased or otherwise acquired from any United States governmental department, agency, or corporation; or

(iii) To any material which on the governing date was in transit to a point within the continental United States.

(iv) To materials imported by mail where the value of the shipment is less than \$100.00; or

(v) To materials consigned as gifts or as samples, or for use as samples, or imported for personal use, where the value of each consignment or shipment is less than \$200.00; or

(vi) To materials consigned as gifts for personal use by or to members of the Armed Services of the United States.

(vii) To any material on List I or List II imported by any person under any contract or other arrangement made before, or in existence on the governing date and which, on December 28, 1942, was in transit to a point within the continental United States.

(c) *Restrictions on disposition of List I material.* Except as hereinafter specifically provided in paragraph (d) hereof:

(1) *Restrictions upon owners and consignees.* No owner or consignee of any material on List I which is imported after the governing date shall in any way, directly or indirectly:

(i) Dispose of any interest in such material;

(ii) Process or in any way change the physical condition of such material;

(iii) Transfer possession, or cause or permit a transfer of possession, of such material except to the port of entry and from the port of entry to the place of initial storage of such material; or

(iv) Change, or cause or permit a change of, the location of such material except to the port of entry and from the port of entry to the place of initial storage of such material.

Provided: That a consignee of such material may dispose of his interest in such material to the extent necessary to complete any commitment or contract made prior to the governing date. The person to whom he disposes of such interest shall be subject to all restrictions imposed upon owners by this order.

(2) *Restrictions upon banks and persons similarly situated.* No bank or other person which, as agent, pledgee, beneficiary under a trust receipt, or otherwise, has possession of or any interest in any written instrument evidence-

ing any interest in any material on List I shall in any way, directly or indirectly, dispose of any such interest, or transfer possession, or cause or permit a transfer of possession, of such instrument, unless:

(i) Such material was imported before the governing date; or

(ii) Such person neither knows nor has reason to know that such material was imported after the governing date; or

(iii) Such disposition or transfer is necessary to permit a consignee to make a permissible disposition of material in accordance with subparagraph (1) of this paragraph (c); or

(iv) Such disposition or transfer is made to the owner of the material and such owner has complied with all the provisions of this order.

(d) *Permissible disposition of List I materials*—(1) *Transfer to governmental agency*. Nothing contained in this order shall prohibit an owner or consignee of any material on List I imported after the governing date, or a bank or other person having possession of, or an interest in, a written instrument evidencing an interest in such material, from disposing of, or making any arrangement to dispose of, any interest in such material to the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation.

(2) *Authorization by War Production Board*. Notwithstanding the provisions of paragraph (c), an owner or consignee of material on List I imported after the governing date or a bank or other person having possession of or an interest in a written instrument evidencing an interest in such material, may process such material or may dispose of any interest in such material or any such written instrument, or transfer possession or change the location thereof, or cause or permit such a transfer of possession or change of location, upon written authorization by the War Production Board. Any such person may make application in duplicate for such an authorization on Form PD-222A, which form shall be addressed to the War Production Board. Ref.: M-63, Washington, D. C.

(3) *Exceptions*. The restrictions set forth in paragraph (c) shall not apply to any material after any United States governmental department, agency, or corporation becomes the owner thereof, and shall not apply to any material of which any United States governmental department, agency, or corporation is the owner at the time of importation, and shall not apply to any material purchased or otherwise acquired from any United States governmental department, agency, or corporation.

(e) *Restrictions on disposition of List II or List III material*. Any material on List II or List III, which is imported after the governing date, may be sold, delivered, processed, consumed, purchased, or received without restriction under this order, but all such transactions shall be subject to all applicable

provisions of the regulations of the War Production Board and to all orders and directions of the War Production Board which now or hereafter may be in effect with respect to such material.

(f) *Reports*—(1) *Reports on customs entry*. No material which is imported after the governing date, including materials imported by or for the account of the Board of Economic Warfare, Commodity Credit Corporation, Metals Reserve Company, Defense Supplies Corporation, or any other United States governmental department, agency, or corporation, shall be entered through the United States Bureau of Customs for any purpose, whether for consumption, for warehouse, in transit, in bond, for re-export, for appraisal, or otherwise, unless the person making the entry shall file with the entry Form PD-222B in duplicate. The filing of such form a second time shall not be required upon any subsequent entry of such material through the United States Bureau of Customs for any purpose; nor shall the filing of such form be required upon the withdrawal of any material from bonded custody of the United States Bureau of Customs, regardless of the date when such material was first transported into the continental United States. Both copies of such form shall be transmitted by the Collector of Customs to the War Production Board, Division of Stockpiling and Transportation, Ref.: M-63, Washington, D. C.

(2) *Other reports*. All persons having any interest in, or taking any action with respect to, any material imported after the governing date, whether as owner, agent, consignee, or otherwise, shall file such other reports as may be required from time to time by the War Production Board.

(g) *Routing of communications*. All communications concerning this order shall, unless otherwise herein directed, be addressed to: War Production Board, Washington, D. C., Ref.: M-63.

(h) *Violations*. Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or who furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority assistance.

(i) *Applicability of priorities regulations*. This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board, as amended from time to time.

Issued this 28th day of April 1943.

N. S. C.—No separate class or commodity number has been assigned for the material as described by the Department of Commerce, Statistical Classification of Imports.

INTERPRETATION I

No authorization under paragraph (b) of the order is necessary for the release or withdrawal of materials on List II or List III from a free port, a free zone, or the bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States regardless of the date when such materials first entered such place. The actual importation, which is the subject of restriction under paragraph (b), is deemed to have occurred before the question of release or withdrawal arises. Also, no authorization under paragraph (d) of the order is necessary for the subsequent disposition, processing, or shipment of such released or withdrawn List II and List III materials.

As to List I materials which are similarly situated, no authorization under paragraph (b) of the order is necessary for their release or withdrawal from free port, free zone, or bonded custody, but authorization under paragraph (d) of the order is necessary for their subsequent disposition, processing, or shipment unless they are shipped in bond to Canada, Mexico, or some other foreign country, in which event the foreign destination is deemed to be the place of initial storage as such term is used in the order. (Issued June 30, 1942.)

INTERPRETATION 2

The following official interpretation is hereby issued by the War Production Board with respect to the meaning of the term "in transit" as defined in paragraph (a) (6) of General Imports Order M-63 (§ 1042.1) as amended:

By amendment dated December 17, 1942, the definition of material "in transit" was changed by adding the following clause, "or if it has actually been delivered to and accepted by a rail, truck, or air carrier, for transportation to a point within the continental United States." The question has been raised as to the meaning of the term as applied to a case where the material on the governing date had been delivered to and accepted by a rail, truck, or air carrier on a through bill of lading for transportation to a specified port and from thence by boat to a point within the continental United States.

The material in the stated case is not deemed to be in transit within the meaning of the term as used in the order. If the material is to be carried to the port of arrival in the continental United States by ship, the material must have been afloat, or on an ocean bill of lading must have been issued with respect to it, on the governing date in order for it to be considered as having been in transit on such date.

Material which has been delivered to and accepted by a rail, truck, or air carrier on the governing date for transportation to a point within the continental United States is deemed to be in transit within the meaning of the term as used in the order only when the transportation specified in the bill of lading issued by such carrier calls for delivery of the material at the port of arrival

in the continental United States by rail, truck, or air carrier, not by ship. (Issued March 5, 1943.)

PART 1262—HAND SERVICE TOOLS

[General Preference Order E-6 as Amended April 28, 1943]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of hand service tools and of alloy steel used in their manufacture, for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1262.1 *General Preference Order E-6—(a) Definitions.* For the purposes of this order:

(1) "Producer" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not, engaged in the production of hand service tools.

(2) "Hand service tool" means any tool listed on Exhibit A hereto attached which is used by hand, and is made of iron or steel or has a principal component part made of iron or steel.

(b) *Restrictions on use of steel for the manufacture of hand service tools.* No producer shall manufacture any hand service tools out of any alloy steels except those which are in the series specified in Exhibit B to this order, or except pursuant to specific permission of the War Production Board: *Provided, however,* that any alloy steel in a series which is not listed in Exhibit B but which has been received by the producer for use in the manufacture of hand service tools before the first day of November 1942 may be so used by him.

(c) *Restrictions on sales of hand service tools.* No producer shall sell or deliver any hand service tools except pursuant to a purchase order bearing a preference rating of A-9 or higher, or except pursuant to specific permission of the War Production Board.

(d) *Reports.* Each person to whom this order applies shall execute and file with the War Production Board such reports and questionnaires as said Board shall from time to time require.

(e) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime; and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *Appeal.* Any person affected by this order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or that it would result in a degree of unemployment which would be unreasonably disproportionate compared with the amount of material conserved, or that compliance with this order would disrupt or impair a program of conversion from non-defense to defense work, may appeal to the War Production Board by addressing a letter to the War Production Board, Washington, D. C., Ref.: E-6, setting forth the pertinent facts and the reasons he considers he is entitled to relief. The War Production Board may thereupon take such action as it deems appropriate.

(g) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Washington, D. C. Ref.: E-6.

(h) *Applicability of Priorities Regulation No. 1.* This order and all transactions affected thereby are subject to the provisions of Priorities Regulation No. 1 (Part 944) as amended from time to time, except to the extent that any provision hereof may be inconsistent therewith, in which case the provisions of this order shall govern.

(i) *Changes in schedules.* Notwithstanding any other provision of this order, the War Production Board may direct or change any schedule of production or delivery of hand service tools,

allocate any order for hand service tools to any other producer, divert or otherwise direct the delivery of any hand service tools to any other person.

(i) The form should be filed only by the person (transferee) desiring to receive x-ray equipment and not by the person (transferor) desiring to make delivery of such equipment.

(ii) Do not fill in columns (b) and (c) of Table II.

(iii) Do not fill in sections 6, 7 and 8 of Table III.

(iv) Under section 5 of Table III give the following information:

(a) State whether or not you have in use any radiographic, fluoroscopic or therapy equipment. If so, (1) describe such equipment, (2) state the average number of patients per week on which such equipment is now used, and (3) state whether the equipment applied for would be used to replace existing equipment or is needed for expansion of existing facilities.

(b) State how you now accomplish the work for which the equipment applied for would be used.

(2) The authorization of the War Production Board on Form PD-556 shall apply not only to the purchase order by the original purchaser for the x-ray equipment specified on such form, but also to any orders for x-ray equipment placed by such purchaser's suppliers, as permitted below, in fulfillment of the authorized order. The original purchaser shall notify his supplier of the authorization by furnishing him with a certifica-

tion in substantially the following form (on the purchase order or on an attached document):

Any such certification shall be signed by an authorized official, either manually or as provided in Priorities Regulation No. 7, and shall constitute a representation to the supplier and to the War Production Board of the facts certified therein. The supplier may rely upon such representation unless he knows or has reason to believe such representation to be false.

On or before May 10, 1943, and on or before the 10th day of each succeeding calendar month, each manufacturer shall file with the War Production Board in triplicate on Form PD-774, his proposed production and shipping schedules of x-ray equipment for such period as production and shipping may be planned. Upon receipt of such form, the War Production Board will approve or disapprove the proposed production and shipping schedules or make such changes therein as it shall deem necessary, and will thereupon return to the manufacturer a copy of such form as approved or changed. "GENERAL MANAGER TYPE" GRAIN DOORS SOLD TO RAILROADS

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Section 1439.73 (a) (83) is amended to read as follows:

(83) *"General Manager type" grain doors sold to railroads.*—(i) *Products covered.* This amendment covers "General Manager type" grain doors, size 7'0" x 20" x 1½", or 7'0" x 10" x 1½", which meet any of the following listed, or any similar, specifications:

Chicago, Burlington and Quincy R. R. specification #57539

Great Northern Railway specification #1631

chasing railroad shall be figured as follows:

(a) Where the seller is a grain door manufacturer who in 1942 sold the same kind of door to the railroad which is now making the purchase, the maximum price in sales to the purchasing railroad is the price figured as follows: The seller should take the maximum price which governed his sales of the door prior to the effective date of § 1499.73 (a) (83) of the General Maximum Price Regulation. He should then add the amount by which the cost of lumber, charged in at market prices (but not over any ceiling price), and the cost of direct labor used in making the door increased between March 1, 1942 and March 1, 1943. The total is the seller's maximum price for that size grain door. However, in no event can the maximum price figured under this subdivision (ii) (a) for doors delivered on the line of the purchasing railroad be higher than the following prices:

	Hemlock or other northern softwoods or hardwoods	Ponderosa pine, fir or other western softwoods	Southern pine, cypress, basswood or other southern or eastern softwoods or hardwoods
7'0" x 20" x 1 5/8"	\$1.15	\$1.23	\$1.23
7'0" x 10" x 1 5/8"	.69	.74	.74

(b) Where the seller is a grain door manufacturer who in 1942 sold the same kind of door, but not to the railroad which is now making the purchase, the maximum price to the purchasing railroad is the price figured as follows: The seller should take the price figured under subdivision (ii) (a) above and increase (or decrease) it by the amount by which the cost, if any, of making delivery to the purchasing railroad, at the point of delivery required by the buyer, is greater (or less) than the cost of making delivery to the railroad to which the seller sold the same kind of grain doors during 1942.

(c) Where the seller is a grain door manufacturer who in 1942 did not sell to any railroad the same kind of door which he now is selling, the maximum price is the price which governs sales to the same purchaser by the closest competitive manufacturer who can figure a ceiling price for that kind of door under either subdivisions (ii) (a) or (ii) (b) above.

(d) Where the seller is not a manufacturer, the ceiling price for the seller is the same as the ceiling price for the plant which manufactures the grain doors sold by the seller.

(iii) *Reports.* Any seller who figures a price for grain doors under this amendment must report the price for each size door to the Lumber Branch, Office of Price Administration, Washington, D. C., before May 15, 1943. The report must show how the price was figured.

(a) Where the seller is a grain door manufacturer who in 1942 sold the same kind of door to the railroad which is now making the purchase, the report should show:

(1) The seller's maximum price before the effective date of § 1499.73 (a) (83) of the General Maximum Price Regulation.

(2) The amount added for an increase in the cost of lumber from March 1, 1942 to March 1, 1943, and an explanation of the type of lumber used and how the increase in cost was figured; and

(3) The amount added for an increase in the cost of direct labor from March 1, 1942 to March 1, 1943, and an explanation of how the increase in cost was figured.

(b) Where the seller is a grain door manufacturer who in 1942 sold the same kind of door, but not to the railroad which is now making the purchase, the report should show the things required in (a) above; and should indicate the adjustment, if any, made for the difference between the cost of making delivery to the purchasing railroad and the cost of making delivery to the railroad to which the seller sold the same kind of grain doors during 1942.

(c) Where the seller is a grain door manufacturer who in 1942 did not sell to any railroad the same kind of door which he is now selling, the report should show the name, address, and maximum price of the manufacturer whose ceiling price the seller is using.

(d) Where the seller is not a manufacturer, the report should show the name, address, and maximum price of the plant which manufactures the grain doors sold by the seller.

(iv) *Adjustment of incorrect maximum prices.* Where the report submitted shows that the seller figured the maximum price in an incorrect manner, the Office of Price Administration will, by letter, order the price reduced to the correct ceiling price. Refunds must be made to adjust the prices charged by the seller to the correct maximum price. If the Office of Price Administration does not order the price reduced before June 1, 1943, the reported price shall be considered approved.

This amendment shall become effective May 3, 1943.

[Docket No. A-1031]

PART 324—MINIMUM PRICE SCHEDULE, DISTRICT NO. 4

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 4 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 4.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, was duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 4.

The petition, among other things, requests relief for the coals produced at Mine Index No. 3047, located in Carroll County, Ohio, and Mine Index No. 438, located in Stark County, Ohio, operated by Leonard A. Billman, doing business as Billman Coal Company. The minimum prices established for truck shipments for the coals produced at these mines are the same except for Size Group 6 coals, for which Mine Index No. 3047 has a minimum price of \$2.40 per net ton and Mine Index No. 438 has a mini-

mum price of \$2.30 per net ton. On March 26, 1913, the Director granted temporary permission to Leonard A. Billman to use the minimum prices for truck shipments established for the coals produced at Mine Index No. 3047 when the coals produced at Mine Index No. 438 are shipped over the tipples of Mine Index No. 3047. The petition now seeks permission to ship the coals from either mine over the tipples of the other at the price applicable to the mine over which the tipples shipment will be made. The petition fails to allege sufficient facts for the Director to grant such permission.

It appearing that a reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act:

Now, therefore, it is ordered, That, pending final disposition of the above-entitled matter, temporary relief is granted as follows: Commencing forthwith § 324.7 (Alphabetical list of code members) is amended by adding thereto Supplement R, and § 324.24 (General prices in cents per net ton for shipment

into all market areas) is amended by adding thereto Supplement T, which supplements are hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That Leonard A. Billman be permitted to ship by truck coals produced at Mine Index No. 438 over the tippie of Mine Index No. 3047

at not less than the minimum prices applicable to truck shipments for coals produced at Mine Index No. 3047.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

It is further ordered, That the request contained in the petition that Leonard A. Billman be permitted to ship coals produced at Mine Index No. 3047 over the tippie of Mine Index No. 438 at the prices applicable to Mine Index No. 438 be, and the same hereby is, denied for the reason that no facts have been presented to substantiate the granting of the request.

Dated: April 13, 1943.

(SAN FRANCISCO)

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and, pursuant to law, the undersigned, after investigation:

1. Finding that The Yokohama Specie Bank, Ltd., a Japanese corporation, Tokyo, Japan, is a national of a designated enemy country (Japan);

2. Finding that said The Yokohama Specie Bank, Ltd. has an established Branch Agency or Office at San Francisco, California (herein called "the California Branch") engaged in the conduct of business within the United States, and therefore is to that extent a business enterprise within the United States;

3. Finding that the property of the California Branch is in the process of administration by the Superintendent of Banks of the State of California as its Conservator, acting under the provisions of the Bank Act of the State

of California and also under judicial supervision of the Superior Court of the State of California in and for the City and County of San Francisco;

4. Finding, therefore, that the property described as follows:

The excess proceeds, if any, of the business and property of the California Branch in the possession of the Superintendent of Banks of the State of California, acting in his capacity as Superintendent of Banks, Liquidator and/or Conservator, of which may hereafter come into his possession in any such capacity under and by virtue of the banking law of the State of California, owned or controlled by or payable or deliverable to or held on behalf of or on account of or owing to the California Branch remaining after payment of the claims of the creditors of the California Branch accepted, allowed or established in accordance with the banking law of the State of California, arising out of the business of the California Branch transacted in the State of California, together with interest on such claims and the expenses of liquidation,

is property within the United States owned or controlled by a national of a designated enemy country (Japan), and also is property which is payable or deliverable to, or claimed by, a national of a designated enemy country (Japan) and which is in the process of administration by a person acting under judicial supervision;

5. Determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of the aforesaid designated enemy country (Japan);

6. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive Order or Act or otherwise; and

7. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 4, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Nothing in this order is intended to affect the right and power of the Superintendent of Banks of the State of California, acting in his capacity as Superintendent, Liquidator and/or Conservator, to continue to retain possession of, collect and liquidate such business, property and assets and, in course of said liquidation or conservatorship, to do such acts and perform such duties (not inconsistent herewith) as may be required of or permitted to said Superintendent of Banks in his capacity as Superintendent, Liquidator and/or Conservator, as aforesaid, by and in accordance with and subject to the provisions of the Bank Act of the State of California: *Provided, however*, That after the claims of the creditors of the California Branch described in subparagraph 4 hereof, together with interest thereon and the expenses of liquidation, have been paid in full, the remaining assets of the California Branch, or the proceeds thereof, in the possession of said Superintendent of Banks or to which he may be or become entitled acting in his capacity as Superintendent, Liquidator and/or Conservator, shall be held for the account of and subject to the further order of the Alien Property Custodian.

The property herein vested, if any, and any or all of the proceeds thereof, shall

be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, if any, or to indicate that compensation will not be paid in lieu thereof if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. [Order 20 Under Rev. MPR 161]

LINDBERG AND-HOBI COMPANY

ORDER DISMISSING APPLICATION

Order No. 20 under Revised Maximum Price Regulation No. 161¹—West Coast Logs.

On March 4, 1943, Lindberg and Hobi Company, Tacoma, Washington, filed an application for adjustment of the maximum prices established by Revised Maximum Price Regulation No. 161 on No. 1 and No. 2 Douglas fir peeler logs sold in the Puget Sound District. This application was filed jointly under Procedural Regulation No. 6² and Revised Maximum Price Regulation No. 161. The application was improperly filed under those regulations for the reasons set forth below.

(a) Application for adjustment was not properly filed under either Revised Maximum Price Regulation No. 161 or Procedural Regulation No. 6 since, in the first instance, Revised Maximum Price Regulation No. 161 does not permit the filing of individual applications for adjustment, and, in the second, Procedural Regulation No. 6 permits the filing of such application only where a person has entered into or proposes to enter into a government contract or a sub-contract, and it has not been shown that applicant has entered into or proposed to enter into such contracts.

Accordingly, pursuant to the Emergency Price Control Act of 1942, and Procedural Regulations No. 1 and 6, *It is ordered*, That the said application be, and it hereby is, dismissed.
